For the last 45 years John Breguet has faced the voters with gavel in hand to moderate the Town Meetings with dignity, wisdom and good humor. We dedicate this report to him not only for his long service, but also remembering his involvement in many other capacities - Director of the Town's 175th Anniversary Pageant, Co-Chairman with George Childs of the 200th Town Celebration, "Uncle Josh" in The Old Homestead Play, County Commissioner, the Grange, Church and Historical Society - indeed, an outstanding citizen.

BOARD OF SELECTMEN - 1981

Selectmen organized with Jeanne E. Hemenway, Chairman, Arthur J. King, Clerk, and Steve Berrien, Welfare Agent. Meetings were held regularly throughout the year as the press of business both routine and unusual made the usual bi-weekly summer meetings impossible.

The Board was in the forefront in viewing the concerns of the town about the siting of a group residence proposed by the State Department of Mental Health. The proposal, had it been acted on would have located a group home in either the village of Haydenville or Williamsburg, Unfortunately the experience of the town with such facilities has not been pleasant and the Department of Mental Health has withdrawn its proposals at this time.

The Board also became involved in the proposal to convert the Brassworks and adjacent land areas into high density low and moderate income housing. While the Board of Appeals rejected this proposal, the matter has been appealed to a state review agency which will decide the matter. The Selectmen intend to continue their opposition to this project which would sorely tax the ability of the Water, Fire, Police and School Departments to provide service.

As a result of a vote of the Special Town Meeting, the Board granted a provisional license to Continental Cablevision of Northampton to provide cable service to the town. Construction is to begin in the spring of 1982. The system will serve approximately half of the town residents. We wish to thank Mr. Keith Longey for his work in bringing this service to our community.

The Selectmen attempted to deal with the fiscal constraints of Proposition 2½ by increasing the fees for licenses and permits. These increases have generated significant new income to the town, but unfortunately only cover the cost of the services provided.

The Solid Waste Transfer Station took much of the Selectmen's attention, because of its extreme importance, cost, and the order of the state Department of Environmental Quality Engineering issued against the town because of delays in completing the project and the operation of the stump dump. The lesson to be learned on this is that it only becomes more and more expensive to the town when a project is delayed.

Because of reduced budget, the Highway Department had to move more slowly with its normal work and do less. Nonetheless, the reconstruction of Mountain Street was completed utilizing funds from Ch. 570 and Ch. 329 accounts. There were 23 winter storms, 15 with snow totalling 32½", 6 freezing rain storms, and 2 heavy rain storms causing many drainage problems. Sanding was done on 23 storms and plowing operations on nine. The town was fortunate that the winter was so mild but the Selectmen are concerned that the weather will not always cooperate with our budget.

Pay raises were granted the Highway, Fire and Police Departments and to the Town Secretary. The Selectmen note with concern, that other Town Officers also work for salaries far below sums that are equitable or reflect the responsibility and importance of their positions.

A perambulation of the Town was conducted by the Selectmen during the summer. All the boundaries were found. While searching the woods for markers was not always easy, it was a welcome change from dealing with the more important issues before the Town.

Respectfully submitted,

Jeanne E. Hemenway, Chairman
Arthur J. King
Steve Berrien

COUNCIL ON AGEING ANNUAL REPORT 1981

For the Council on Ageing, 1981 has been a most interesting year with much change in many ways. The usual events have taken place. To name a few; monthly birthday luncheons and entertainment, monthly trips by the Travel Club to the Coachlight Theatre to enjoy current musicals, many day trips and three and four day trips to places of interest, continuation of activities including weekly bowling, exercise classes and the regular issue of the Newsletter to more than 300 Senior Citizens in the surrounding area.

Obviously the highlight of 1981 was the opportunity to move from the basement to the two large rooms on the first floor at the rear of the Haydenville Center School. The renovations are partially finished and nearly completed, pending a grant requested from the State Dept. of Elder Affairs for a Discretionary Grant for renovations to make the Senior Center accessible for Handicapped persons. We are indebted to many organizations, individuals, Activities Committee of the Senior Center for their donations of monies. The auction, held on the School grounds, also brought in a fine profit. The all new Meal Site, the first project to be completed and put into operation in August, has been a highlight of our Center. Still to be completed will be the Handicap Toilet facilities, being constructed in available space, and the Entrance Ramp to be installed at the Center door at the rear of the building when weather permits in the Spring. It should be noted that this move to the first floor has enabled us to maintain the Blood Pressure Clinic in a permanent location which is held on the third Monday of each month and a Foot Clinic which is held every three months by appointment. We were also able to obtain from the Dept. of Elder Affairs a Formula Grant, which upon request, is given to all Councils on Ageing. This sum of money is allocated for the purpose of holding Arts and Crafts and Painting Classes.

When complete renovations have been finished we are making plans and looking forward to holding Open House in our new Senior Center Quarters. At that time due recognition will be gratefully acknowledged in all areas to all who had any part in this very worthwhile endeavor, made possible only by many hours of manual labor by many individuals to achieve the fruition of the Meal Site and Senior Drop-In Center. We do indeed have reason to be very pleased and proud of what has been accomplished to make this a most successful year.

We would like to express our appreciation and thanks to all for support by their presence and offerings and interest in the Senior Center.

Helen S. Kellogg, Director

CONSERVATION COMMISSION REPORT 1981

The Conservation Commission holds regular meetings on the second Thursday of each month at the Town Offices.

The Conservation Commission is empowered to administer Gen. Law 131, Sect. 40 (Wetland Protection Act) within the Town of Williamsburg. This pertains to all activities within 100 feet of a river or wetland. No work should commence without prior filing with this commission.

During 1981 we held two hearings under this act. We had minor involvement in the Orwat Nursing home hearings and the Brassworks hearings. We also investigated several wetland area complaints.

The commission had one application pertaining to the Agricultural Preservation Restriction Act under Chapter 780 of the Acts of 1977.

The commission has copies of the Wetland Protection Act available to town residents and applications for the Agricultural Preservation Restriction Act.

PLANNING BOARD REPORT 1981

The Planning Board met twice a month to review land division plans under the Subdivision Control Regulations to consider and suggest improvements and amendments to the Protective By Law of the Town, and to offer opinions from a planning perspective on petitions to the Board of Appeals for variances and special permits under the By Law.

Amendments regulating the disposal of hazardous and nuclear wastes and the development of flood plain areas were presented to Town Meetings, passed, and later approved by the Attorney General of the Commonwealth.

The proposed Brassworks development occupied much of our time during this year. In addition to the many specific problems the proposal raised, the Board spent many hours attempting to understand the Comprehensive Permit (Chapter 774) process, and held several informational hearings at which the Brassworks Associates were invited to present their plans informally to the Town and receive comments and suggestions.

In addition, the Board continued to develop a set of comprehensive maps for the Town. A map of hydrology and watersheds was completed, and a utilities map was contracted for and a preliminary draft seen. The following maps are now complete and

available for use: Base Map, Soils, Wetlands, Topography, Hydrology, and Utilities.

Laurence Flaccus stepped down from the chairmanship of the Board during the year, after 6 years of valuable service; he remains an active member of the Board and the Town's delegate to the Lower Pioneer Valley Regional Planning Comm., of which he is Vice Chairman. Steve Berrien left the Board upon his election as Selectman, and Ruth Mills resigned during the year.

The Planning Board encourages the attendance of interested citizens at its meetings, which are held on the first and third Mondays of each month at 7 p.m.

OLIVER SMITH WILL

Under the provisions of the Oliver Smith Will, several townspeople listed in the following categories received benefits during the year, two boys \$1,000.00, one widow, \$200.00, and six brides \$600.00.

Youths working under an apprenticeship program may apply for benefits before the age of 19, but must serve until the age of 21. Brides may qualify for a gift of \$100.00. Nursing students may apply, within six months after entry into a nursing school, for a \$300.00 gift upon graduating with a R.N. degree. Widows, with children under 18, who do not remarry and do remain within the Town may apply for \$200.00 annually.

Applications and information concerning benefits may be obtained from Raymond Heath, Edwards Street, Haydenville, Mass. 01039.

THE HAYDENVILLE LIBRARY REPORT 1981

Some interesting programs by local artists were held at the library during the year, including a demonstration of the dulcimer by Tim Van Egmond, and a poetry reading by Amanda Emerson.

These programs were arranged by Lois Scott.

The Library continues to be well served by the Western Regional Bookmobile, now operating out of Hatfield. It offers many excellent volumes of fiction and non-fiction, large print books and record albums. This service is a great asset to a small library with a low book budget.

Several acts of vandalism have occurred at the library in recent months, which is unfortunate, as repairs are costly.

The Haydenville Library is open for four hours each week, on Wednesday from five to nine. Our librarian is Kathleen Doyle, and assistant librarian is Shannon Cerreta.

REPORT OF THE FIRE CHIEF 1981

The Fire Department answered 71 calls during 1981. These calls were: 16 chimney, 13 grass or woodland, 8 auto accidents, 7 dump, 6 structure, 3 appliance malfunctions, 3 false alarms, 1 lost child, 12 miscellaneous, 2 mutual aid.

Training and drill is an important segment of fire fighting activities. Many hours are given by the firefighters learning and preparing for situations that may occur.

An article is going to be presented at Town Meeting to replace a piece of fire apparatus. We have two pieces whose age and condition indicate that they should be replaced.

After long and careful consideration, the Williamsburg Fire Department joined the fire dispatch center operated by the Amherst Fire Department. This gives the residents of Williamsburg emergency telephone coverage and dispatching 24 hours a day, answering a problem we were experiencing of having gaps in our telephone coverage and dispatching capabilities. With the new service in place several weeks, it is working well with few problems.

I thank the firefighters for their efforts and dedication throughout the year in answering emergencies, maintaining the buildings and equipment, and making the Fire Department operate in the efficient manner that it does. Also to Donald and Joan Baldwin, a sincere thank you for many years of dedicated service to the Town of Williamsburg and its Fire Dept.

Respectfully submitted,

Roger A. Bisbee, Fire Chief

WILLIAMSBURG HISTORIC COMMISSION REPORT

This year, the Commission has been called upon primarily as interpreter of federal guidelines as they relate to the Historic Districts of Williamsburg and Haydenville, and to express the need to preserve and protect the architecture and settings of specific properties in the Districts. We have attended Board of Appeals meetings and rendered opinions to them about use, conversion, and rehabilitation. We have been especially concerned and active in the Brassworks and Dept. of Mental Health projects. We have contacted federal and state agencies as well as the Lower Pioneer Valley Regional Comm. to help us answer questions which townspeople have had about the ramifications of being in an historic district. We have also been working to amass information which could be available to Town boards when making decisions pertaining to district properties.

Respectfully submitted,

WATER COMMISSION REPORT 1981

The Board meets regularly on the 1st and 3rd Wednesday of each month at the Town Office. The Board was very active in planning for the future. Our 1904 water system is showing signs of age and current demands, especially on fire hydrants, cannot be met with our system. The Board met with engineers to discuss work on the reservoir and has obtained engineering estimates for several construction projects. The Board intends to fund the work on a pay as we go basis, and we have reluctantly, voted to increase water rates for bills after July 1, 1982. We obtained bids and issued a forestry contract on the watershed which will not only improve the quality of our ground-cover and road system, but also generate funds for construction. We were very involved in explaining the water system and its problems to the Board of Appeals concerning the Brassworks project.

BUILDING INSPECTOR REPORT 1981

Eighty building permits were issued in the calendar year, 1980. Eight for dwellings, four of which were two-family - value \$303,600. Fifty two were remodeling, additions, chimneys, etc. to residential buildings - value \$114,066. Thirteen business permits - value \$70,300. Seven for auxillary buildings - value \$5,250. Total value of building permits issued was \$493,216.00

Applications for building permits may be obtained and filed at the Town Office. A fee is now required before a permit is issued. The fee is .05 (five cents) per sq. ft. of new construction or conversion of building into apartments. Remodeling and all other permits, the fee is \$10.00 (ten dollars).

Respectfully submitted,

Benjamin H. Willcutt
Building Inspector

SEWER COMMISSION REPORT - 1981

The Sewer Commission organized with Richard L. Childs, Chairman, Harry W. Warner, Jr., and Walter E. Kellogg, III.

Meetings are held throughout the year on the second and fourth Wednesday of each month at 7:30 at the Town Office.

By December, 1981 there were approximately 240 homes and businesses connected to the sewer. The Board of Health has notified all property owners along the Mill River and other brooks and streams in Town that they must either have dye tests done on their present systems or connect to the sewer.

Sewer permit applications are available at the Town Office. These must be approved before any work can be started. Also available at the Town Office is a list of the contractors licensed to do work on the sewer connections.

Respectfully submitted,

Richard L. Childs, Chairman
Harry W. Warner, Jr.

Based upon the distribution of pupils recorded as of Oct. 1st, the costs for the operation of the Central (Superintendent's) Administrative Office are to be shared by the six (6) cooperating school systems as follows:

	<u>1980-81</u>	<u>1981-82</u>	<u>1982-83</u>
Chesterfield	5.9%	5.4%	6.1%
Goshen	4.2	4.7	4.2

	100.0%	100.0%	100.0%

At the close of the 1980-81 school year, this office was moved from the Haydenville Center School to Hampshire Regional High School in Westhampton. The move was undertaken as a means to reduce administrative expenses through the elimination of a shared rental fee which was rapidly approaching \$9,000.00 per year for the other five (5) school committees. Although two classroom spaces were lost in the move, the Region's educational program was not affected owing to the gradual decline in students over the last several years.

Department personnel who left the employ of the town during 1981 included:

Mr. Walter Bachand	Custodian
Mr. David Cloutier	Physical Education
Mrs. Mary Foster	Cafeteria (Part-time)
Mr. Alan Golash	Custodian

Mrs. Elaine Lawton	Art Aide	(part-time)
Mrs. Susan McCauley	Library Aide	(part-time)

Personnel newly employed during the year included:

Mrs. Patricia Barnard	Art	(part-time)
Mr. Michael Korpita	Physical Education	(part-time)
Mrs. Mary LaFogg	Cafeteria Aide	(part-time)

During the 1981 session of the Massachusetts General Court, several new statutes of importance relating to education were written into law. Among them were the following:

- Chapter 24 enables a regional school committee to delay the adoption of its annual budget until 45 days prior to the earliest member town meeting.
- Chapter 62 requires school bus drivers to activate their red four-way hazard warning lights (simultaneous turn signal lamps) when approaching a stop to load or discharge students. While in the process of loading or discharging students, bus drivers shall activate their red alternating flashing signal lamps. Use of the alternating flashing lights is prohibited at any other time.
- Chapter 134 permits school committees to accept grants or gifts for educational purposes and to disburse the same for such purposes.
- Chapter 339 authorizes a town (which accepts the provisions of the act) to anticipate the receipt of fees charged to users and to use such amounts to offset a portion of actual expenses in making appropriations.
- Chapter 460 permits parents or guardians of a student, to inspect that student's school records regardless of the age of that student.
- Chapter 471 specifies that towns acting on appropriations for educational costs, shall vote on the total amount (bottom line) of appropriations requested and shall not allocate appropriations among accounts or place any restriction on such appropriations. However, nonbinding monetary recommendations to increase or decrease certain line items may be made.
- A new statute, signed into law by the Governor on the morning of this writing and not as yet assigned a chapter number, returns a limited but qualified degree of fiscal autonomy to regional school committees. (See the Superintendent's Report to the Hampshire Regional School District for details).
- Another statute as yet without a chapter number contains certain over-ride provisions with respect to "Proposition 2½" which are too detailed for inclusion in this report.

With the opening of school in September came changes which will have an impact upon the community for a number of years to come.

1. The Superintendent's Office was moved from the Haydenville Center School to Hampshire Regional. This resulted in a loss of rental income to the Town and the closing of Center School for School Department purposes.
2. Declining enrollments and budgetary limitations caused the School Committee to assign all elementary aged pupils to the Dunphy School and to temporarily close the James School. Jurisdiction of that building, however, remains with the School Department.
3. To accommodate all pupils at the Dunphy School, the Cafeteria was converted into two (2) classrooms. Lunches are now served at one end of the Gymnasium, an arrangement used at a number of schools in other communities.

Mrs. Wendy McClaflin	Library Aide
Mr. Patrick Stewart	Business Subjects

The enactment of "Proposition 2½" in late 1980 meant loss of fiscal autonomy to all school committees beginning in 1981. Responding to that situation and recognizing the necessity to effect budget reductions which would fall within the ability-to-finance range of its five (5) member towns, the Regional Committee took the following major steps:

1. Staff reduction of six and one-half (6½) positions.
2. Elimination of almost all field trips.
3. Elimination of the Junior High School interscholastic athletic program.
4. Elimination of rent for the Superintendent's Office by providing adequate space within the school itself.
5. Limiting spending in all other areas to the minimum and in some cases, to an emergency-only basis.

The loss of fiscal autonomy created a rather special problem unique to regional school districts because it became possible for each of the member towns to approve a different regional budget. If different regional budgets were approved, the regional committee then had to reduce all member town assessments to meet the level of the one town approving the lowest budget.

In order to rectify this situation and still maintain the spirit of "Proposition 2½", Chapter 744 of the Acts of 1981 was recently signed into law. This new law specifies that the regional budget approval process shall require:

1. A 2/3 vote of the regional school committee.
2. A majority vote by 2/3 of the member towns.

If 2/3 of the member towns do not approve their respective assessments, the regional school committee has 30 days within which to amend the budget and resubmit it for approval. The committee may also reduce its assessments to the member towns at any time after adopting its annual budget. It should be noted that in Hampshire Region, it will take a majority vote by four (4) towns to achieve the necessary 2/3 vote of its member towns.

Briefly stated, what this new law does for Hampshire Regional when it comes to budgeting, is to restore what had become a minority rule district to that of a majority rule district. Although this statement is true when looked at from member

town point of view (the ability of 4 towns to determine the District's level of support by the 5th town), the Town of Southampton may not agree inasmuch as it shall be providing more than 51% of the total assessments beginning July 1, 1982.

During years of fiscal austerity, one of the areas most likely to receive inadequate funding is that of building maintenance. This reality coupled with the fact that our school is now in its eleventh (11th) year of operation, means that maintenance problems are being compounded at a rate with which our maintenance efforts have not nearly been keeping pace. As an example, the building has approximately 900 heating controls virtually all of which need immediate attention in order to preclude the possibility of system failure at some point in the near future. Unfortunately, we remain in a "Maintenance by crisis" rather than a more desirable "preventative maintenance" program.

The determination of fiscal priorities in a school budget is further complicated by the fact that our curriculum does not presently reflect any acknowledgement that computer literacy is an absolute necessity for a significant number of our current graduates. Hampshire Regional High School should no longer delay movement in this direction. Unfortunately, such a program will require new expenditures of major proportions.

Donald J. Buss
